3. Colorie de la même couleur la flèche et la bulle correspondante

The image shows a circular arrangement of playing cards and empty bubbles. In the center is a 3 of diamonds. Surrounding it are ten other cards: 10 of diamonds, 2 of diamonds, 10 of diamonds, 3 of diamonds, 4 of diamonds, 7 of diamonds, 6 of diamonds, 10 of diamonds, 10 of diamonds, and 10 of diamonds. The cards are arranged in a ring around the central card. There are ten empty bubbles, one for each card, arranged in a ring around the cards. The bubbles are intended for the student to write the addition problem and the result.

The image shows a circular arrangement of playing cards. In the center is the 4 of Spades. Surrounding it are ten other cards: the Ace of Spades, 2 of Spades, 3 of Spades, 5 of Spades, 7 of Spades, 9 of Spades, 10 of Spades, and 8 of Spades. Each card has an arrow pointing outwards to one of ten empty, rounded rectangular bubbles. The bubbles are arranged in a ring around the cards. The activity involves writing an addition problem in each bubble, calculating the result, and coloring the bubble and its corresponding arrow the same color.

The image shows a circular arrangement of playing cards, specifically the Clubs suit, from the Ace to the Ten. Each card is placed in a central position, and an arrow points from each card to an empty, rounded rectangular bubble. The bubbles are arranged in a ring around the cards. The cards are: Ace of Clubs (A), 2 of Clubs (2), 3 of Clubs (3), 4 of Clubs (4), 5 of Clubs (5), 6 of Clubs (6), 7 of Clubs (7), 8 of Clubs (8), 9 of Clubs (9), and 10 of Clubs (10). The 5 of Clubs is the central card. The bubbles are intended for the student to write the addition problem (e.g., $5 + \text{card value} = \text{total}$) and then color the arrow and bubble.

3. Colorie de la même couleur la flèche et la bulle correspondante

The image shows a circular arrangement of playing cards, specifically the hearts suit, from the Ace to the 10. Each card is placed in the center of a larger, empty, rounded square bubble. An arrow points from each card to its corresponding bubble. The bubbles are arranged in a ring around the cards. The cards are: Ace of hearts (A), 2 of hearts (2), 3 of hearts (3), 4 of hearts (4), 5 of hearts (5), 6 of hearts (6), 7 of hearts (7), 8 of hearts (8), 9 of hearts (9), and 10 of hearts (10). The bubbles are intended for the student to write the addition problem (e.g., $1 + 6 = 7$) and then color the arrow and bubble the same color.
