Subject: Industry lobbyists target Dr. Maryanne Demasi (here's how to help)

Hi,

On Saturday, I sent you a link to watch "[WI-FRIED?](#)" on ABC Australia. It was an excellent, courageous investigation of risk from EMF and wireless radiation. The bad news? The show's producer Dr. Maryanne Demasi has been attacked by industry lobbyists. And the situation has escalated since her Huff Post [rebuttal](#).

The wireless industry has now teamed up with show "Media Watch" in what appears to be an organized attempt to suppress the truth and get her fired.

She is going up against a huge industry who is very financially motivated. And **she needs our support**.

Please take a moment to [post your comment here](#), stating your support of [WI-FRIED?](#), and telling "Media Watch" what you think about their collaboration with lobbyists and suppression of science.

Dr. Demasi told one of her supporters:

"I've had to engage two lawyers today, an employment lawyer and a defamation lawyer. Unfortunately, the ABC won't be providing me with any legal help so I've [sought] my own. I hope they can do something to dampen the story on Media Watch."

Please take a moment to go on the Media Watch website. Scroll down to the comments section, and tell them what you think:

And tweet your support to Dr. Demasi [@MaryanneDemasi](#)

Let us see clearly through the illusion of industry rhetoric, lies and propaganda. And let's turn up the volume of truth.

Onward,
Josh del Sol
