

Prénom : _____

Colorie le chemin du cycliste pour rejoindre sa maison. Il ne peut passer que par des additions dont la somme est 10.

A boy wearing a yellow and red helmet and a green backpack is riding a blue bicycle. The path is a series of circles containing addition problems. The starting circle is highlighted in yellow and contains the number 10. The path ends at a house with a red door and the number 10 on it. The final circle on the path is also highlighted in yellow and contains the number 10.

Colorie le chemin de la cycliste pour rejoindre sa maison. Elle ne peut passer que par des additions dont la somme est 12.

A girl wearing a purple helmet and a pink shirt is riding a green bicycle. The path is a series of circles containing addition problems. The starting circle is highlighted in light blue and contains the number 12. The path ends at a house with a red door and the number 12 on it. The final circle on the path is also highlighted in light blue and contains the number 12.
