Règle du jeu du DOMINO I

2 joueurs

L'un contre l'autre

Chaque joueur reçoit 6 dominos.

Le plus jeune commence en posant le domino de son choix. Les joueurs jouent chacun leur tour en accolant une fraction à sa représentation.

Lorsqu'un joueur ne peut accoler ni d'un côté, ni de l'autre, il passe son tour.

Le gagnant est celui qui a posé tous ses dominos en premier.

L'un avec l'autre

Les deux joueurs doivent accoler chaque fraction à sa représentation jusqu'à qu'il n'y ait plus de cartes.
