

## Climat et ciel « micro-ondé »

Nous nageons tous dans une mer de transmissions de micro-ondes qui déciment le système climatique et sont extrêmement nuisibles à toutes les formes de vie. Ce que vous ne connaissez pas au sujet des transmissions de micro-ondes peut vous heurter. Enfin beaucoup commencent maintenant à chercher et à prendre connaissance de la pulvérisation continue des aérosols atmosphériques qui se produit dans le ciel dans le monde entier.

Des nuages de formes incroyablement anormales et des formes qui ne peuvent être considérées que comme d'ingénierie ont été photographiés par satellite. Les transmissions de micro-ondes extrêmement puissants sont un aspect majeur de l'agression du climat qui passe souvent inaperçu par beaucoup, même dans les rangs du mouvement anti-ingénierie climatique. Les transmissions de radio fréquence sont utilisées par les ingénieurs de climat pour manipuler l'avion qui pulvérise des métaux lourds et des particules chimiques. Comme les ondes sonores, les ondulations de transmission micro-ondes à travers l'atmosphère, laissant leur signature révélatrice sur l'aérosol de géo-ingénierie

## Climate Engineering And **Microwaved Skies**

**We are all swimming in a sea of microwave transmissions that are decimating the climate system and are extremely harmful to all life forms. [What you don't know about microwave transmissions can hurt you.](#)** Many are now finally beginning to look up and take notice of the ongoing atmospheric aerosol spraying that is occurring in skies all over the globe. [Incredibly anomalous cloud shapes and forms which can only be considered](#)

[engineered](#) have been photographed from satellite. [Extremely powerful microwave transmissions are a major aspect of the climate engineering assault](#) that often goes unnoticed by many, even within the ranks of the anti-climate engineering movement. [Radio frequency transmissions are utilized by the climate engineers to manipulate the aircraft sprayed heavy metal and chemical particulates. Like sound waves, microwave transmissions ripple through the atmosphere, leaving their telltale signature on the geoengineering aerosol laced cloud cover.](#)

Atmospheric [microwave transmissions](#) are a major and lethal aspect of the ongoing weather [warfare assault](#). The climate engineers are inflicting immense damage on the already decimated climate system and biosphere. [The more damage the geoengineers do, the more they expand the climate engineering insanity](#). This is not global warming mitigation, it is omnicide. If these highly destructive programs of climate intervention are allowed to continue, it will soon enough be at the cost of life on Earth. If we are to have any chance of turning the tide, [we must ALL make our voices heard in the fight for the greater good.](#)
