

Complète.

$$3 + 3 = \dots 6$$

Le double de 3, c'est $\dots 6$ 

$$5 + 5 = \dots 10$$

Le double de 5, c'est $\dots 10$ 

$$4 + 4 = \dots 8$$

Le double de 4, c'est $\dots 8$ 

$$6 + 6 = \dots 12$$

Le double de 6, c'est $\dots 12$ 

$$2 + 2 = \dots 4$$

Le double de 2, c'est $\dots 4$ 

$$1 + 1 = \dots 2$$

Le double de 1, c'est $\dots 2$

Complète.

$$3 + 3 = \dots$$

Le double de 3, c'est \dots 

$$5 + 5 = \dots$$

Le double de 5, c'est \dots 

$$4 + 4 = \dots$$

Le double de 4, c'est \dots 

$$6 + 6 = \dots$$

Le double de 6, c'est \dots 

$$2 + 2 = \dots$$

Le double de 2, c'est \dots 

$$1 + 1 = \dots$$

Le double de 1, c'est \dots 

Sami a 8 billes. Lola en a le double.
Combien de billes a Lola? Dessine-les.

$$8 + 8 = 16$$

Lola a **16** billes.

Écris le double de chaque nombre.

$2 \rightarrow 4$

$4 \rightarrow 8$

$8 \rightarrow 16$

$6 \rightarrow 12$

$5 \rightarrow 10$

$9 \rightarrow 18$

$1 \rightarrow 2$

$10 \rightarrow 20$

$7 \rightarrow 14$

Sami a 8 billes. Lola en a le double.
Combien de billes a Lola? Dessine-les.

Lola a billes.

Écris le double de chaque nombre.

$2 \rightarrow 4$

$4 \rightarrow \dots$

$8 \rightarrow \dots$

$6 \rightarrow \dots$

$5 \rightarrow \dots$

$9 \rightarrow \dots$

$1 \rightarrow \dots$

$10 \rightarrow \dots$

$7 \rightarrow \dots$
