Labyrinthe de calculs

Aide le Père Noël à traverser le labyrinthe de calculs pour arriver au Pôle Nord.

A maze of arithmetic problems. Each cell contains a calculation. The maze starts at the top center with Santa Claus and an arrow pointing left. The path leads through various calculations to the North Pole at the bottom center.

Labyrinthe de calculs

Aide le Père Noël à traverser le labyrinthe de calculs pour arriver au Pôle Nord.

A maze of arithmetic problems. A red dashed line traces a path from Santa Claus at the top center, through various calculations, and ends at a red star at the bottom left. The calculations include multiplication, division, addition, and subtraction. Some numbers are highlighted in blue.

Example calculations from the maze:

- $15 \times 8 = 120$
- $36 \div 12 = 3$
- $53 - 27 = 26$
- $13 \times 7 = 91$
