Range les masses de ces objets par ordre croissant (du plus léger au plus lourd).

Voici une boîte de masses marquées.

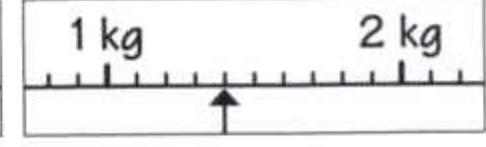

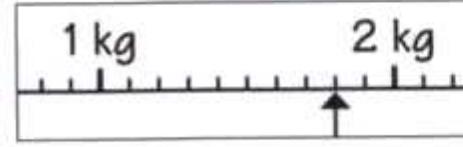

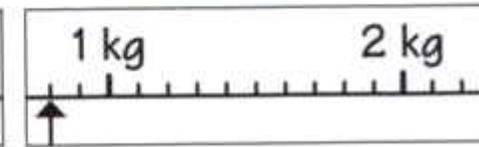

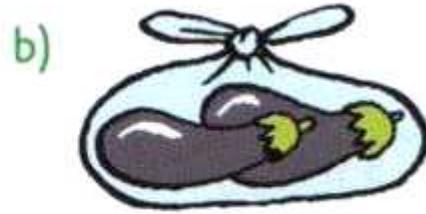

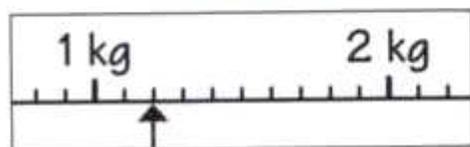

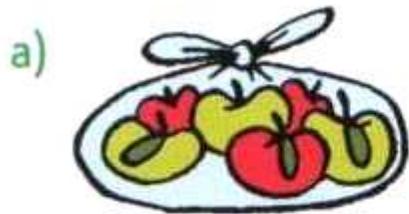

Patrick vient de faire ses courses.

Comment va-t-il s'organiser pour les transporter ?

- 1 kg 250 g de viande
- 800 g de poisson
- 200 g de chocolat
- 1 kg de sucre
- 250 g de beurre
- 1 kg de farine
- 2 paquets de 250 g de café
- 1 kg de sucre
- 3 kg de pommes

Quelle est la masse des paquets suivants ? Classe-les du plus lourd au plus léger.

Choisis la bonne unité.

a) un chien

4 g

4 kg

b) un yaourt

130 g

130 kg

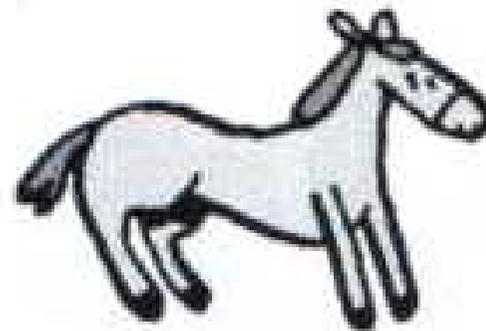

c) un hamster

400 g

400 kg

d) un cheval

600 g

600 kg
