Qui a $45+10$?

J'ai 55

Qui a $30+70$?

Régle du jeu

Distribuer toutes les cartes.

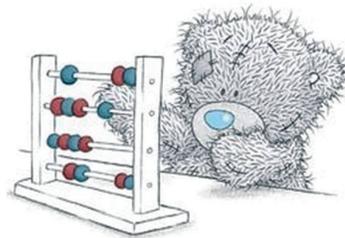

Poser une carte sur la table. Annoncer "j'ai 6". Qui a $22+2$?

Le joueur qui a la carte correspondant au résultat annonce "j'ai 24" et demande "qui a $8+8$?".

Ainsi de suite. Quand il est impossible de poser une carte, les joueurs peuvent poser une carte chance suivie de la carte de leur choix et le jeu reprend.

◦ Le gagnant est celui qui s'est débarrassé le plus rapidement de toutes ces cartes.

J'ai

Qui a ?
