FANTASTIQUE

CYCLE 2 - NUMÉRATION

Décomposer un nombre
en dizaine

Numération

Décomposer un nombre en dizaine

1 Complète l'addition. Regarde l'exemple.

Exemple :
 $10 + 3 = 13$

$10 + \dots = \dots$

$10 + \dots = \dots$

$10 + \dots = \dots$

2 Relie les étiquettes entre elles.

$10 + 5 =$ •

$10 + 1 =$ •

$10 + 8 =$ •

$10 + 2 =$ •

$10 + 7 =$ •

12

18

11

15

17

3 Complète l'addition.

$10 + \dots = 16$

$10 + \dots = 12$

$10 + \dots = 11$

$10 + \dots = 18$

$10 + \dots = 19$

$10 + \dots = 14$

4 Décompose comme dans l'exemple.

Exemple : $16 = 10 + 6$

$$12 = \dots + \dots$$

$$17 = \dots + \dots$$

$$19 = \dots + \dots$$

$$13 = \dots + \dots$$

5 Décompose. Regarde l'exemple.

$15 = 10 + 5$

$$11 = \dots + \dots$$

$$14 = \dots + \dots$$

$$13 = \dots + \dots$$

$$18 = \dots + \dots$$

$$19 = \dots + \dots$$

6 Complète l'addition. Regarde l'exemple.

Exemple : $10 + 10 = 20$

$10 + \dots + \dots = \dots$

$10 + \dots + \dots + \dots = \dots$

7 Coche la case devant l'opération qui fait :

30

$10 + 10$

$10 + 10 + 10$

50

$10 + 10 + 10 + 10 + 10$

$10 + 10$

20

$10 + 10 + 10 + 10$

$10 + 10$

40

$10 + 10 + 10 + 10$

$10 + 10 + 10$

8 Calcule.

$10 + 10 = \dots$

$10 + 10 + 10 + 10 = \dots$

$10 + 10 + 10 = \dots$

$10 + 10 + 10 + 10 + 10 = \dots$

9 Décompose. Regarde l'exemple.

$$20 = 10 + 10$$

$$30 = \dots + \dots + \dots$$

$$50 = \dots + \dots + \dots + \dots + \dots$$

$$40 = \dots + \dots + \dots + \dots$$

10 Décompose comme dans l'exemple.

Exemple : $27 = 20 + 7$

$$27 = 10 + 10 + 7$$

$$22 = 20 + 2$$

$$22 = \boxed{} + \boxed{}$$

$$36 = 30 + 6$$

$$36 = \boxed{} + \boxed{} + \boxed{}$$

Numération

Décomposer un nombre en dizaine

11 Encadre les dizaines en rouge et les unités en bleu comme dans l'exemple.

$$24 = \boxed{20} + \boxed{4}$$

$$24 = \boxed{10 + 10} + \boxed{4}$$

$$31 = 30 + 1$$

$$31 = 10 + 10 + 10 + 1$$

$$45 = 40 + 5$$

$$45 = 10 + 10 + 10 + 10 + 5$$

$$67 = 60 + 7$$

$$67 = 10 + 10 + 10 + 10 + 10 + 10 + 7$$

$$59 = 50 + 9$$

$$59 = 10 + 10 + 10 + 10 + 10 + 9$$

12 Décompose. Regarde l'exemple.

$$26 = \boxed{20} + \boxed{6}$$

$$26 = \boxed{10 + 10} + \boxed{6}$$

$$23 = \boxed{20} + \boxed{3}$$

$$23 = \boxed{ + } + \boxed{}$$

$$35 = \boxed{30} + \boxed{5}$$

$$35 = \boxed{ + } + \boxed{}$$

$$49 = \boxed{40} + \boxed{9}$$

$$49 = \boxed{ + + } + \boxed{}$$

13 Complète. Regarde l'exemple.

$$10 + 10 + 4 = 20 + 4 = 24$$

$$10 + 10 + 10 + 2 = \dots + \dots = 32$$

$$10 + 10 + 7 = \dots + \dots = 27$$

$$10 + 10 + 10 + 10 + 10 + 10 + 3 = \dots + \dots = 63$$

$$10 + 10 + 10 + 10 + 5 = \dots + \dots = 45$$

$$10 + 10 + 10 + 8 = \dots + \dots = 38$$

$$10 + 10 + 10 + 10 + 10 + 10 + 10 + 1 = \dots + \dots = 71$$

14 Vrai ou faux ? Colorie la bonne étiquette :

$$24 = 20 + 4$$

vrai faux

$$48 = 10 + 10 + 8$$

vrai faux

$$39 = 10 + 10 + 10 + 9$$

vrai faux

$$67 = 60 + 3$$

vrai faux

$$51 = 10 + 10 + 10 + 1$$

vrai faux

$$27 = 10 + 10 + 7$$

vrai faux

15 Coche les cases devant les opérations qui font :

38

$10 + 10 + 10 + 8$

$20 + 8$

$30 + 8$

44

$10 + 10 + 4$

$40 + 4$

$10 + 10 + 10 + 10 + 4$

52

$50 + 2$

$10 + 10 + 10 + 10 + 10 + 2$

$50 + 7$

61

$10 + 10 + 10 + 10 + 10 + 5$

$10 + 10 + 10 + 10 + 10 + 10 + 1$

$60 + 1$

16 Complète comme dans l'exemple.

Exemple : $48 = 40 + 8$

$48 = 10 + 10 + 10 + 10 + 8$

$34 = \dots\dots\dots + 4$

$34 = \dots\dots\dots + 4$

$13 = \dots\dots\dots + 3$

$29 = \dots\dots\dots + 9$

$13 = \dots\dots\dots + 3$

$29 = \dots\dots\dots + 9$

17 Complète comme dans l'exemple.

Exemple : $36 = 10 + 10 + 10 + 6$

$45 = \dots\dots\dots$

$27 = \dots\dots\dots$

$51 = \dots\dots\dots$

$39 = \dots\dots\dots$
