

Mon fichier des tables d'additions de $+1$ à $+5$

Ce carnet appartient à:

Table de 1

$1 + 0$	
$1 + 1$	
$1 + 2$	
$1 + 3$	
$1 + 4$	
$1 + 5$	

Table de 2

$2 + 0$	
$2 + 1$	
$2 + 2$	
$2 + 3$	
$2 + 4$	
$2 + 5$	

Table de 3

$3 + 0$	
$3 + 1$	
$3 + 2$	
$3 + 3$	
$3 + 4$	
$3 + 5$	

Table de 4

$4 + 0$	
$4 + 1$	
$4 + 2$	
$4 + 3$	
$4 + 4$	
$4 + 5$	

Table de 5

$5 + 0$	
$5 + 1$	
$5 + 2$	
$5 + 3$	
$5 + 4$	
$5 + 5$	

Table de 6

$6 + 0$

.....

$6 + 1$

.....

$6 + 2$

.....

$6 + 3$

.....

$6 + 4$

.....

$6 + 5$

.....

Table de 7

	$7 + 0$		
	$7 + 1$	
	$7 + 2$	
	$7 + 3$	
	$7 + 4$	
	$7 + 5$	

Table de 8

$8 + 0$	
$8 + 1$	
$8 + 2$	
$8 + 3$	
$8 + 4$	
$8 + 5$	

Table de 9

$9 + 0$	
$9 + 1$	
$9 + 2$	
$9 + 3$	
$9 + 4$	
$9 + 5$	

Table de 10

$10 + 0$	
$10 + 1$	
$10 + 2$	
$10 + 3$	
$10 + 4$	
$10 + 5$	

Déroulement de l'activité

Remarque:

Pour réaliser cette activité, les enfants auront à leur disposition une boîte contenant **10 jetons rouges** et **10 jetons bleus** (si nécessaire) afin de les positionner sur les marques blanches en cas de difficultés pour compter

Ils vont devoir mettre en couleur les jetons blancs pré-dessinés dans la seconde colonne afin de réaliser le calcul.

Pour cela, ils vont devoir décortiquer le calcul.

Prenons par exemple l'énoncé suivant:

Ils vont colorier 3 jetons en rouge en verbalisant leur action...

“ Je colorie 1 jeton en rouge et 1 jeton en rouge et encore 1 jeton en rouge. J'ai coloré 3 jetons en rouge ”

Puis 2 jetons en bleu toujours en verbalisant leur geste

“ Je colorie 1 jeton en bleu et encore 1 jeton en bleu. J’ai coloré 2 jetons en bleu ”

Enfin l’enfant verbalise ce qu’il a dessiné

“ J’ai coloré 3 jetons rouge et 2 jetons en bleu. J’ai donc coloré 5 jetons en tout . »

Quand il a réalisé toutes ces étapes, il peut écrire la réponse dans la dernière colonne en verbalisant une dernière fois son calcul.

“ $3 + 2 = 5 \dots$ J’écris donc 5 ”

Puis il réalise tous les exercices de la page demandée... .
