Maths Addition Money Word Problems with 3 digit numbers
Please use formal written method and show working in your book.
For example:
$£ 5.55+39 p+£ 1.50=£ 7.44$
110
$£ 5+50+5$
$30+9$
$£ 1+50+0$
$£ 7+40+4$

1. I have only $£ 5$ to spend. Can I buy a £2.98 Horrid Henry book, a £1.56 set of pencils and a 46p rubber?
2. A Fuse chocolate bar costs 31p. A pack of YOYO fruit rolls costs 35p. If I buy two Yoyos and one Fuse, how much money do I need?
3. What is the total cost of a $£ 4.99$ book and a $£ 7.29$ game?
4. Aidan spent $£ 1.99$ on crisps, $£ 2.29$ on chocolate, $£ 4.99$ on a book.

How much did she spend altogether?
Will £10 cover the cost?
5. Mum bought 2 rolls of wallpaper at $£ 5.99$ each. How much did she spend altogether?
