A LA UNE

Goats help prevent fires in California

Wildfires often rage in the US State of California. Firefighters are getting unusual help to fight them ! Goats are eating dead plants that are in danger of going on fire.

DID YOU KNOW

Goats are herbivores.
They do not have any upper front teeth !
Their top lip helps them to chew.

wire - pole - bush - tail - horn - dry grass

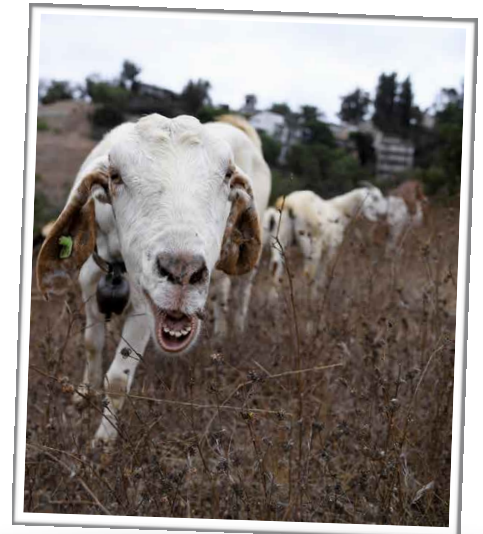

PHOTO OF THE WEEK

On October 20th, 2 cranes were demolished with explosives in New Orleans (US). This was to secure the construction site of a hotel. The building had collapsed 8 days earlier, killing 3 people.
