

# Figures géométriques - quadrillages à colorier

		nom
jour	mois	

Colorie les cases comme dans l'exemple.

Activity grid containing 18 examples of geometric shapes on a 5x5 grid. Each example consists of a 5x5 grid with a pattern of shaded cells and an adjacent empty 5x5 grid for coloring. The patterns are as follows:

- Example 1: A 3x3 square with a checkerboard pattern.
- Example 2: A 3x3 square with a checkerboard pattern, rotated 45 degrees.
- Example 3: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 4: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 5: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 6: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 7: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 8: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 9: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 10: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 11: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 12: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 13: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 14: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 15: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 16: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 17: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
- Example 18: A 3x3 square with a checkerboard pattern, rotated 45 degrees, with a small square at the bottom right.
