## A LA UNE

### Sidney is covered with smoke

Giant clouds of smoke covered the East of Australia last week, including Sydney, the country's largest city. Bushfires made the air dangerous. People were advised to stay indoors.

## DID YOU KNOW

Bushfires have burned in Australia since September. It is very hot there because it is summer.

tower - smoke - roof - palm tree - shore - boat - street lamp

## PHOTO OF THE WEEK

Last week, 20 days before 2020, these numbers were put in Times Square. Thousands of people gather there in New York City (US) for New Year's Eve!
