A LA UNE

Plastic was found in a dead sperm whale

100 kilos of rubbish were discovered in a dead sperm whale, in Scotland, last week. There were tangled ropes, fishing nets and assorted plastic in its stomach.

DID YOU KNOW

Sperm whales sometimes measure up to 12 metres and weigh up to 50,000 kilos.

Wooly hat - tail - boot - glove - saw

PHOTO OF THE WEEK

This plane flew across the sky, as the sun set over Sydney, Australia, on December 4th. Toxic smoke has covered the city due to wildfires.
