

# VILLAGE TO VILLAGE CARE

Harnessing the power of community to provide basic medical care to those in need

Improving access to primary care in underdeveloped areas of the world prevents unnecessary death, improves child mortality and overall quality of life for people living in these communities. The establishment of primary healthcare clinics in underserved areas helps to prevent these premature deaths.

*RSVP by September 1, 2015*

Village To Village Care, Inc. organizes groups of volunteer doctors and other skilled professionals to travel to remote villages in developing countries to engage in a medical mission and to help create a long term primary care presence.

All funds collected from the auction and sale of artwork will be used to help build, equip and train staff for clinics in Bojongo and Mankoulang villages of Cameroon, Africa.
