Combien derrière le cache ?

A line of 8 monkeys is holding a rope that leads to a square box containing a question mark. Below the monkeys, there are two blue circles: the left one contains the number 8, and the right one is empty. These two circles are connected to a red circle containing the number 9.

\*\*

Nurvera

Combien derrière le cache ?

A monkey is pulling a rope that leads to a rectangular box containing a question mark. A tree is visible on the right side of the box. Below the box, there are two blue circles: the left one contains the number 1, and the right one is empty. These two circles are connected to a red circle containing the number 9.

\*\*

Nurvera

Combien derrière le cache ?

A line of 9 monkeys is holding a rope that leads to a square box containing a question mark. Below the monkeys, there are two blue circles: the left one is empty, and the right one contains the number 9. These two circles are connected to a red circle containing the number 9.

\*\*

Nurvera

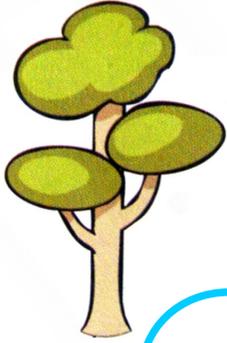

Combien derrière le cache ?

A rope is tied to a rectangular box containing a question mark. A tree is visible on the right side of the box. Below the box, there are two blue circles: the left one is empty, and the right one contains the number 0. These two circles are connected to a red circle containing the number 9.
