RACE FORMAT

• Championships Categories

9.2.047ter. Seeding order for the Round 1 in the BMX race is based on the latest UCI Individual BMX Ranking for each category (seeding order from highest to lowest ranked). Gate position selection order for Round 1 is based on the seeding order.

IMPORTANT NOTE: The UCI reserves the right to change the championships race format should unforeseen circumstances require it (example: severe weather). Should this happen, an official communique describing any changes will be sent to all team managers.

• Challenge and Masters Categories

6.4.010 Competition categories shall be as described in articles 6.1.009 to 6.1.011. In order to give the best chance of completing each day of the UCI BMX Racing World Challenge within a reasonable period of time, the UCI reserves the right to change the number of Rounds of Moots that will be held for some or all of the Challenge and Masters

categories should it decide that conditions (weather, large number of entries, or other) require it.

The UCI BMX Racing World Challenge for each Challenge or Masters level category shall take place on the day it is scheduled, and shall not be rescheduled. Once competition has begun on any given competition day, in case of cancellation prior to the Final, the results will be determined on the basis of the racing completed for each category in question in accordance with article 6.1.041. For any categories in which at least one round of racing has not been completed, such cancellation shall mean that no results are declared for those categories.

6.4.010 bis Challenge and Masters riders will be seeded into the motos during the UCI BMX Racing World Challenge using a scrambled system as described in 6.1.027 quarter

IMPORTANT NOTE: in accordance with article 6.4.010 of the UCI regulations, the UCI reserves the right to change the challenge or masters race format, should unforeseen circumstances require it (example: severe weather). Should this happen, an official communique will be sent to all team managers.

Also, in case a very high number of challenge entries are received, the UCI may decide to change the race format from 3 rounds of Motos to either 2 rounds of Motos or 1 round of Motos before the event begins. If done, this will be decided following the closure of registration once the number of entries is known. If a change is made, it will be announced during the challenge and masters team managers' meeting

OTHER EXTRACTS

- **Combination Rules**

6.1.012 (N) In order for a category to be held, at least five riders must be registered and confirmed in that category following riders confirmation.

If less than five riders are entered in a category following riders confirmation, they will be combined with an older category. However, categories for Cruiser 24 inch bicycles with a maximum age of more than 34 shall be combined with the next younger category.

Categories for Standard 20 inch bicycles cannot be combined with Categories for Cruiser 24 inch categories, and vice versa.

In the case that any under-subscribed category cannot be combined according to these rules, this category shall not be run.

If the adequate numbers of five riders are registered and confirmed during the riders confirmation, the category will be run even if less riders show up at the start, regardless of the reason, including injury or illness.

- **Combination of Categories and Results**

6.1.014 (N) In any case where two or more categories are combined, the results of the combined categories must be split back into the original, separate categories based on the results summary for the combined categories.

The UCI will only award points in the UCI BMX Racing ranking based upon the separated results.

Also, the riders are awarded the prize money that corresponds with their place in the separated results

Example: Class 1 event combination Women Elite and Women Juniors

RESULT OF THE EVENT	CATEGORY OF RIDER	UCI BMX RACING RANKING POINTS WOMEN JUNIORS	UCI BMX RACING RANKING POINTS WOMEN ELITE
1	Women Juniors	25 (1st place WJ)	
2	Women Elite		100 (1st place WE)
3	Women Juniors	22 (2 nd place WJ)	
4	Women Elite		86 (2 nd place WE)
...			

6.1.015 Except as provided by the combination rules in articles 6.1.012 and 6.1.013, no rider is permitted to compete outside of his age or gender group during UCI registered events.

- **Final classification**

6.1.041 The Final Classification of the BMX Racing event for each category (or combined category) is determined by:

a. The Phase reached (Final, Qualifiers, or Motos or, in the specific case of a UCI BMX Racing World Cup, Round 1 or Last Chance, whichever the case may be).

b. If the Phase reached is the Final or the Qualifiers, the rank from the last completed Round within that Phase.

c. If the Phase reached is the Motos, the total points from this Phase. In case the Motos are not completed, then the total points from all Rounds of the Motos that were completed. In the case of a UCI BMX Racing World Cup event, in case the Last Chance phase is not completed, then those in the Last Chance Phase must be ranked below those who advanced directly to the First Round of the Qualifiers.

d. In the case of a UCI BMX Racing World Cup:

i. If the Phase reached is Round 1, then the finish position from Round 1

ii. If the Phase reached is Last Chance, then the riders advancing directly to the Qualifiers from Round 1 will be ranked above the riders participating in Last Chance, with the Last Chance riders ranked according to finish position in Last Chance

e. The time in the last heat completed, in case of ties the time from the previous heat is considered.

When the tie cannot be broken by time, then the tie-breaker in article 6.1.041ter shall apply.

6.1.041bis (N) In case of a combination of categories, the Final Classification for the combined category is split in accordance with article 6.1.014. A Final Classification

for each individual category is then prepared.

- **Ties**

6.1.041ter This tie-breaking method is used in the following cases:

a. In case more than 1 rider in a heat is scored with the same IRM as described in articles 6.1.034 and 6.1.035;

b. In case a tie occurs in any particular heat where a clear decision cannot be determined from the applicable scoring system in the transferring positions in the Motos, or the Qualifiers or in the case of a UCI BMX Racing World Cup, Round 1 or Last Chance;

c. In case a tie occurs when determining the Final Classification, as described in article 6.1.041.

In all of the above cases, the tie will be broken by applying the following methods in the order listed below until the tie is broken. In case a method is either not available or not applicable to the situation, then the next highest priority tie-breaking method will be used.

- a. Time in the previous heat
- b. Position in the previous heat
- c. If applicable to the situation, the rider's best finish (time, or if not available, finish position) in the preceding qualifiers preceding in descending order of Semi Final, Quarter Final, Eighth Final, et cetera, until the Motos are reached
- d. In descending order 3rd, 2nd, 1st round finish result in the Motos
- e. BMX Racing Time Trial results (if held)
- f. For Championships categories, the UCI Individual BMX Racing ranking, or for Challenge level and Masters categories, the national ranking or series ranking used for seeding the Motos, if any
- g. In the case of breaking ties between riders scored with the same IRM, at random.

Otherwise, if the tie can't be broken according to the above method, then the riders concerned shall share the place in question, and the place(s) below would not be allocated. For example: 2 riders tied for 5th place in the semi-finals would both receive 9th place in the Final Classification; the next place awarded would be 11th place.

6.1.041 quarter Should a situation arise in a heat in one of the three Rounds of Motos or non-transferring positions of a heat in the Qualifiers or in the award positions in the Final where a clear decision cannot be determined from the applicable scoring system, both riders will be scored with the better ranked finishing position. For example: a protest between 5th place and 6th place finishing position would in the case of a tied decision ultimately give both riders 5th place finish in that particular heat; 6th place would not be allocated. Award positions in the Final shall refer to the riders ranked 1st to 3rd for the Championships and Masters categories and 1st to 8th for the Challenge categories.

National Federations must check all entries in the championships, challenge and masters categories before submitting them to the on-line system. It is the responsibility of each national federation to ensure the accuracy of their list of entries.

1.1.006 Federations shall issue licences according to such criteria as they may determine. They shall be responsible for monitoring compliance with these criteria. Before the licence is issued, the licence holder and the national federation must ensure inter alia that the licence holder is adequately insured against accidents and civil responsibility in every country where he practices competitive cycle sport or training throughout the year for which the licence is issued.

6.1.005 A rider aged 17 years or over may choose to compete at either Championship, Challenge or Masters (only if aged 30 and over) level at the beginning of the season, in the appropriate age and gender group.

6.4.005 For avoidance of doubt, all riders entered in the UCI BMX Racing World Challenge must have a license issued by the national federation of their country of residence, in accordance with articles 1.1.001 to 1.1.039. The national federation of each such rider's nationality has the duty to confirm this prior to registering that rider for the UCI BMX Racing World Challenge event. "Article Abridged"

6.4.008 Without prejudice to article 6.1.005, only riders who were licensed in either a Challenge category or Masters category (whichever is applicable) at the

start of the present season are permitted to be entered in the UCI BMX Racing World Challenge. These entries can be made only by the national federation recognised by the UCI in the country of their nationality. Each such national federation has sole responsibility for confirming the eligibility of all riders for the UCI BMX Racing World Challenge in accordance with the UCI Regulations, and for ensuring that the riders concerned have the appropriate international license and insurance as required by Part I of the UCI Regulations.

Contravention of this regulation may render any national federation concerned liable to a fine of up to CHF 5'000, in addition to the disqualification of the riders concerned.

We thank you for taking all necessary steps in order to ensure that these requirements are fulfilled and that participants registered by your federation are adequately covered (against accident, including but not limited to, repatriation, medical costs, et cetera).

Helmets must be worn with the straps securely fastened whenever a rider is practicing or racing or is otherwise within the track boundaries.

When racing, from the start of a heat or run until the point in time when a rider

completes the heat or run by crossing the finish line, if a rider's helmet is removed for any reason, that rider shall be considered as having abandoned the heat or run in question and will be scored as Did Not Finish (DNF).

The UCI strongly recommends that riders wear the following protection:

- Back, elbow, knee and shoulder protectors made of rigid materials
- Protection of the cervical vertebrae.

6.1.087 Any added aerodynamic accessories on personal equipment are not permitted.

6.1.88 Cameras are not permitted during racing. Otherwise, the riders are responsible for securing the fixation of the cameras in order to avoid any danger. The UCI can decide to allow a camera during racing but only for the usage of the TV production company. Metal / permanent fixtures to attach the cameras are not allowed, tape and velcro are allowed. Cameras (as described above) may only be used by riders in the Championship level categories...

NOTE: The practical implementation of this rule means that on-board video cameras will only be accepted if they are attached to the helmet visor or the

bicycle (in a way that does not present a safety risk). Cameras must not be directly attached to the helmet itself. Such cameras can only be used once the waiver valid for the 2022 season has been signed by the riders.

6.1.097 Each rider that has received a UCI International Elite number and also the riders that choose to ride with a world number 1-8, may print their number on the jersey according to the specifications explained in article 6.1.097. Doing so is not mandatory.

NUMBER PLATES

6.1.091 Each bicycle entered into competition must have a number plate attached to the front of the handlebars. This number plate will be provided by the UCI. Riders must use the received number plate and number colour combinations specified for the category in which they are racing as follows:

Championship level

- Elite Men, Elite Women: white plate, black numbers;
- Men Under 23, Women Under 23: grey plate, white numbers
- Men Juniors, Women Juniors: black plate, white numbers.

Challenge level/Master level

- Masters, Men, Boys: yellow plate, black numbers;
- Masters, Women, Girls: blue plate, white numbers;
- Cruiser: red plate, white numbers;

During the 2022 UCI BMX Racing World Championships and Challenge all riders must display a lateral number plate/sticker located just behind the steer tube. The UCI and the organiser will provide a lateral plate for the 2022 UCI BMX Racing World Championships and Challenge.

In all UCI sanctioned BMX Racing events a rider must display the number assigned to him according to the rules set forth in § 6. A rider who fails to display the correct number will not be scored.

NOTE: This means that a rider without the correct number may either be refused their start and scored as DNS, or scored as REL, depending upon when the error is noticed.

The area of the plate that provides a background for the number must, during the entire duration of a competition, be kept free of markings, stickers or other impediments to the number's legibility. Riders may not cut, mutilate, remove or put additional stickers or marking on their

number plate during the 2022 UCI BMX Racing World Championships and Challenge.

Handlebar plates and side plates must be on every riders' bicycle before practice.

TEAM AREA

Each country will have a dedicated team area; 4 Chairs and 1 table are provided for every 20 entries.

Countries with smaller numbers of entries may be grouped together.

Due to the limited space in the team area, only riders who have a competition or practice that day will be allowed to enter the team area with their bike.

Prior to the start of the event, the latest version is always found on www.uci.org. Following the start of the event, updates will be e-mailed to the e-mail address of the team manager given to the secretary during riders' confirmation.

The latest version of the official schedule is always available on the UCI web site at the link below:

DELAYS

Teams are advised that the weather may require a delay in certain cases, as may any other unforeseen circumstance or force majeure. It is possible that significant delays in the practice or racing program may be experienced. The UCI will follow the instructions of civil authorities concerning any such delays.

In case of a delay, the procedure used to inform the teams what will happen will be discussed during the team managers' meeting.

FOR THE CHALLENGE AND MASTERS CATEGORIES

The impact on the event will be as follows:

During Practice:

- Should a delay happen during practice, if possible, extra practice time may be given to those countries that experienced the delay. However, depending on the situation, it may not be possible to extend or replace any shortened or cancelled practice. In such case, the UCI's decision shall be final and can not be appealed.

During Racing:

- Should a significant delay happen during racing on any of the challenge or masters category racing days, it may not be possible to finish the World Challenge

for those categories, depending upon the length of the delay.

The competition for each challenge and masters category will take place on the day that it is scheduled to occur without any postponement. In case of any cancellation, the competition for the affected categories will not be completed, and the results will be determined based upon the racing that has been completed for each such category.

- Should a significant delay occur, depending upon the amount of racing remaining at 21h30 local time, or in the UCI Technical Delegate's judgment, until the level of available daylight is no longer acceptable, the UCI may decide to stop the event for the concerned categories. In this case, the results will be decided in accordance with article 6.1.041 for each category, based upon the racing that has been completed for each such category. Should this happen, any ties that prevent a clear determination of the top 8 riders within each affected category will be broken using the special derogation found earlier in this competition guide. The UCI's decision to stop the event for the concerned categories shall be final and can not be appealed.

FOR THE CHAMPIONSHIPS CATEGORIES

The following procedure will be used:

During Practice:

- Should a delay happen during practice, if possible, extra practice may be given to those categories that experienced the delay. However, depending on the situation, it may not be possible to extend or replace any shortened or cancelled practice. In such case, the UCI's decision shall be final and can not be appealed.

During Racing:

- Should a significant delay happen during racing, it may not be possible to finish the World Championships, depending upon the length of the delay. The competition for the championships categories will take place on the day that it is scheduled to occur, without any postponement. In case of any cancellation, the competition for the affected categories will not be completed, and the results will be determined based upon the racing that has been completed for each such category.
- Should this occur, depending upon the amount of racing remaining at 21h30 local time or in the UCI Technical Delegate's judgment, until the level of available

daylight is no longer acceptable, the UCI may decide to stop the event for the concerned categories. In this case, the results will be decided in accordance with article 6.1.041 for each category, based upon the racing that has been completed. The UCI's decision to stop the event for the concerned categories shall be final and can not be appealed.
