

	La table de 2
--	----------------------

La table de 2, c'est la table des **doubles**.

$0 \times 2 = \underline{\quad}$ $4 \times 2 = \underline{\quad}$ $8 \times 2 = \underline{\quad}$

$1 \times 2 = \underline{\quad}$ $5 \times 2 = \underline{\quad}$ $9 \times 2 = \underline{\quad}$

$2 \times 2 = \underline{\quad}$ $6 \times 2 = \underline{\quad}$ $10 \times 2 = \underline{\quad}$

$3 \times 2 = \underline{\quad}$ $7 \times 2 = \underline{\quad}$

	La table de 4
--	----------------------

$0 \times 4 = \underline{\quad}$ $4 \times 4 = \underline{\quad}$ $8 \times 4 = \underline{\quad}$

$1 \times 4 = \underline{\quad}$ $5 \times 4 = \underline{\quad}$ $9 \times 4 = \underline{\quad}$

$2 \times 4 = \underline{\quad}$ $6 \times 4 = \underline{\quad}$ $10 \times 4 = \underline{\quad}$

$3 \times 4 = \underline{\quad}$ $7 \times 4 = \underline{\quad}$
