

Problèmes du jour

Zoé et Arthur partent en bus avec le centre de loisirs. Au total 56 enfants doivent partir.

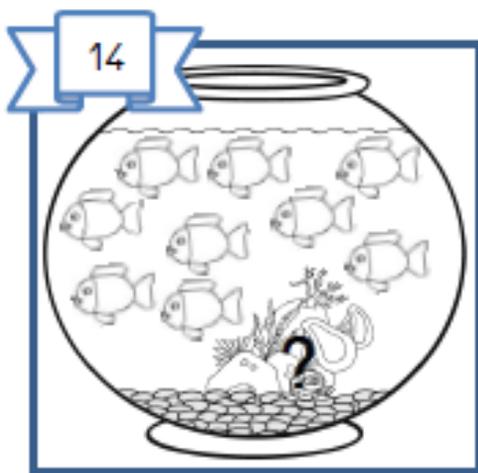

Y aura-t-il assez de places dans les bus ?

$30 + 30 = 60 \rightarrow$ Il y a 60 places en tout.

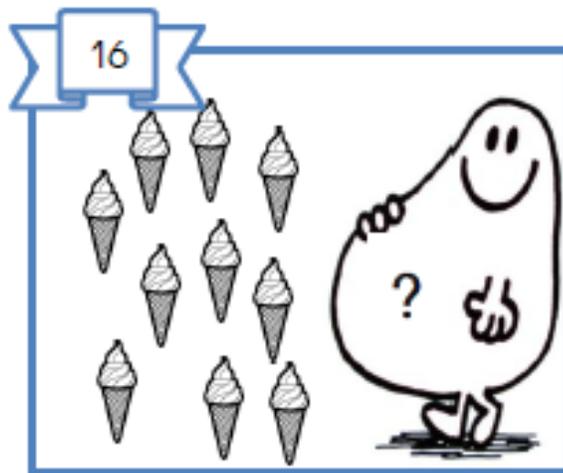

Oui, il y aura assez de places car 60 c'est plus grand que 56.

Écris le nombre de dessins cachés et complète l'addition à trou :

$$9 + \dots = 14$$

$$9 + 5 = 14$$

$$10 + \dots = 16$$

$$10 + 6 = 16$$

Complète les additions sur ton cahier:

$5 + 3 = 8$

$10 + 7 = 17$

$10 + 2 = 12$

$22 + 4 = 26$

$11 + 3 = 14$

$35 + 3 = 38$

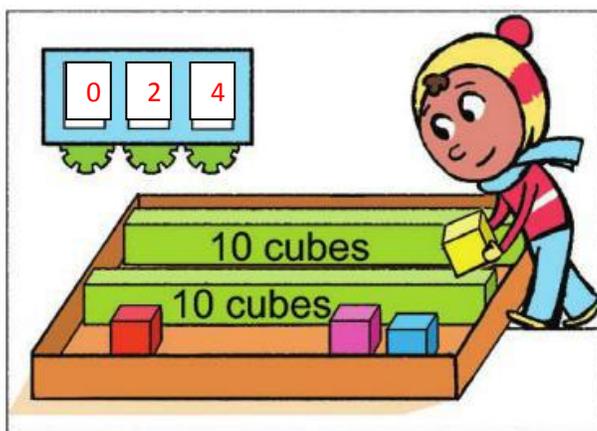

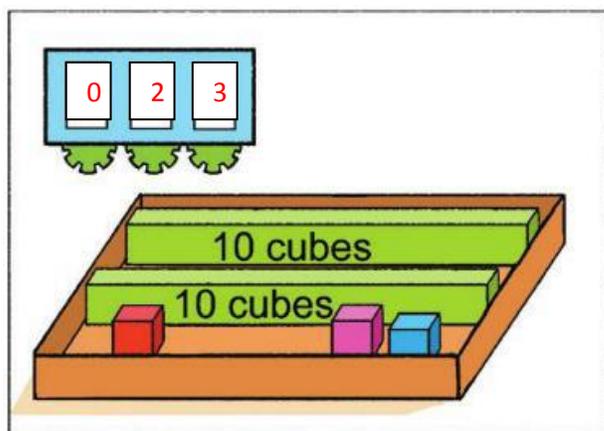

$14 + 4 = 18$

$40 + 2 = 42$

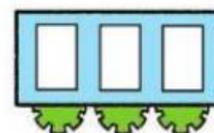

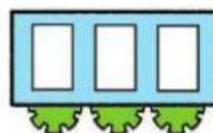

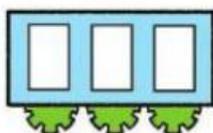

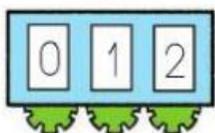

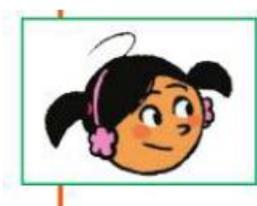

Suite de nombres de 1 en 1 et de 10 en 10

Ecris ce que doit afficher le compteur

Ecris ce que doit maintenant afficher le compteur

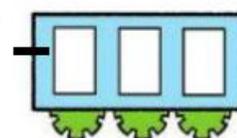

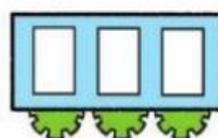

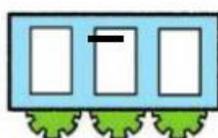

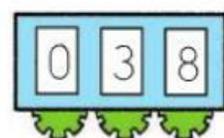

Arthur, Zoé et gribouille complètent leur compteur de 1 en 1. Complète les compteurs en recopiant les nombres sur ton cahier:

013

014

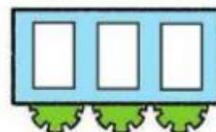

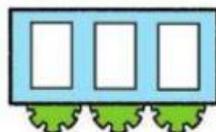

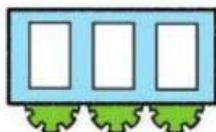

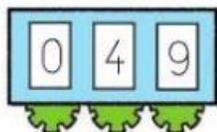

015

039

040

041

050

051

052

Ecris les nombres dans les bulles sur ton cahier :

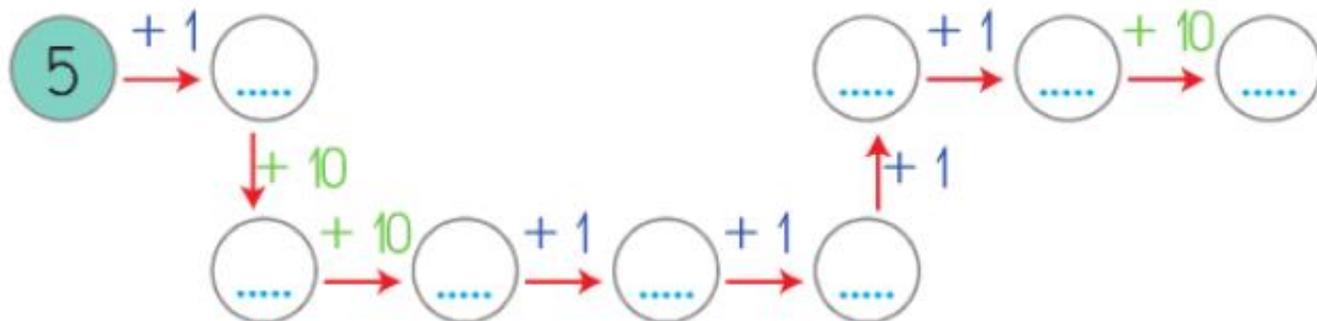

10 20 30 40 50 60 70 80

10 11 12 22 32 42 43 44

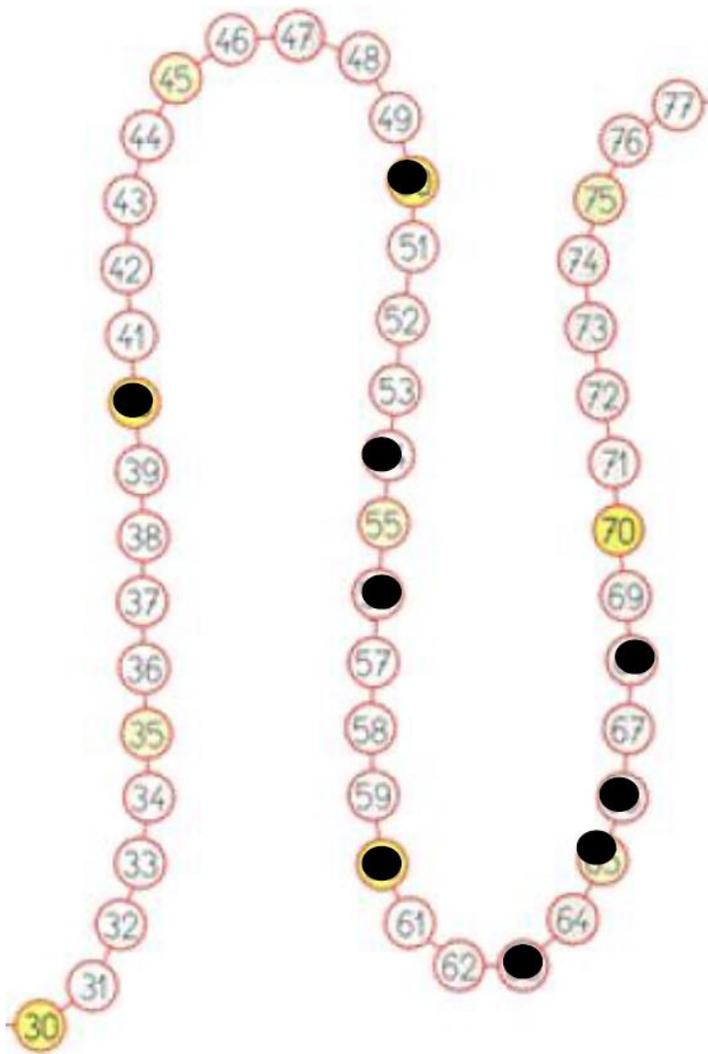

14 24 34 44 54

6 16 26 27 28 29 30 40

Dis les nombres cachés :

40 quarante

50 cinquante

54 cinquante-quatre

56 cinquante-six

60 soixante

63 soixante-trois

65 soixante-cinq

66 soixante-six

68 soixante-huit
