## Curing Lyme disease - Causes and solutions

Thursday, March 17, 2016 by: Jonathan Landsman

(NaturalNews) Although about 30,000 cases of Lyme disease are reported in the U.S. each year, the Centers for Disease Control and Prevention acknowledges the number of actual cases is about 10 times that. Unfortunately, the usual course of treatment – antibiotics - has proven ineffective. But Dr. David Minkoff has a better solution for curing Lyme disease that builds up the immune system rather than tearing it down!

**Know the effective ways to diagnose and treat Lyme disease today.** On the next NaturalNews Talk Hour, Jonathan Landsman and Dr. David Minkoff discuss the symptoms of Lyme disease, plus, a treatment plan that's more effective than the antibiotic regimen promoted by Western medicine. Join us for a show filled with surprising facts about this debilitating condition – and come away with practical, life-changing advice about how to diminish its effects.

### **Lyme disease: Choosing the pathway to an effective cure**

The symptoms of early Lyme disease vary, but often include flu-like symptoms of fever, chills, sweats, muscle aches, fatigue, nausea and joint pain. Conventional medicine takes a single path to treatment: antibiotics. Yet, chronic Lyme disease patients continue to suffer, despite aggressive rounds of antibiotics. The disease is known to be an underlying cause of many other [health](#) problems including ALS, Lupus, Parkinson's Disease and Rheumatoid Arthritis. (to name a few)

Rather than treating with antibiotics, Dr. Minkoff's clinic focuses on rebuilding the immune system so that body can respond by targeting the infection. In many cases, 'natural antibiotics,' such as ozone or hydrogen peroxide, prove to be quite effective – but, a comprehensive program is essential for removing chronic [Lyme disease](#) symptoms.

Find out how to reverse the debilitating effects of Lyme disease. Join us for the next NaturalNews Talk Hour with Jonathan Landsman and Dr. David Minkoff, an alternative medicine and infectious disease expert. Discover the signs of this widespread condition and the effective, natural means of treating Lyme disease without antibiotics.

## 7 ways ozone therapy heals Lyme disease patients

There are a number of ways to effectively treat Lyme disease without poisoning the body with toxic drugs, but Dr. Minkoff says his clinic believes the best all-around treatment for this condition must include ozone therapy. Why?

Ozone therapy increases the amount of oxygen in the body, contributing to recovery from Lyme [disease](#) by:

1. Detoxifying the liver
2. Decreasing uric acid levels in the body
3. "De-clogging" blood cells
4. Improving circulation
5. Killing fungi, viruses and bacteria
6. Improving cellular metabolism
7. Enhancing the immune system

Join us for an important program that will show you how to identify symptoms of Lyme disease, including secondary conditions, along with a proven, [natural](#) strategy for treatment.

**Discover antibiotic alternatives for treating Lyme disease and how to reverse its harmful effects without antibiotics** – Sun. March 20

In 1997, Dr. Minkoff, M.D., co-founded LifeWorks Wellness Center, one of the country's foremost alternative health clinics. In 2000, Dr. Minkoff launched BodyHealth, a nutrition company offering a unique array of dietary supplements to the public and practitioners.

After more than 20 years in conventional medicine, his wife's unexplained illness in 1995 led him to alternative and complementary medicine in search of answers. His journey not only resulted in his wife's return to health, but provided him with expertise in biological medicine, heavy metal detoxification, anti-aging medicine, functional medicine, energy medicine, neural and prolotherapy, homeopathy and nutrition.
