

Découvrir les nombres et leurs utilisations – Les ours

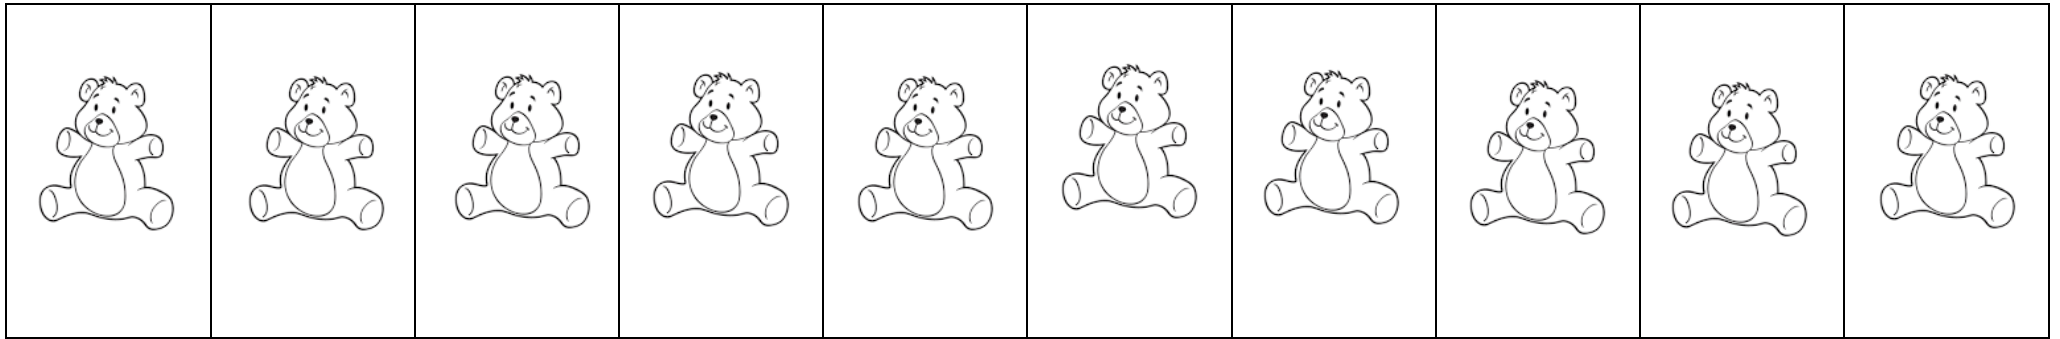

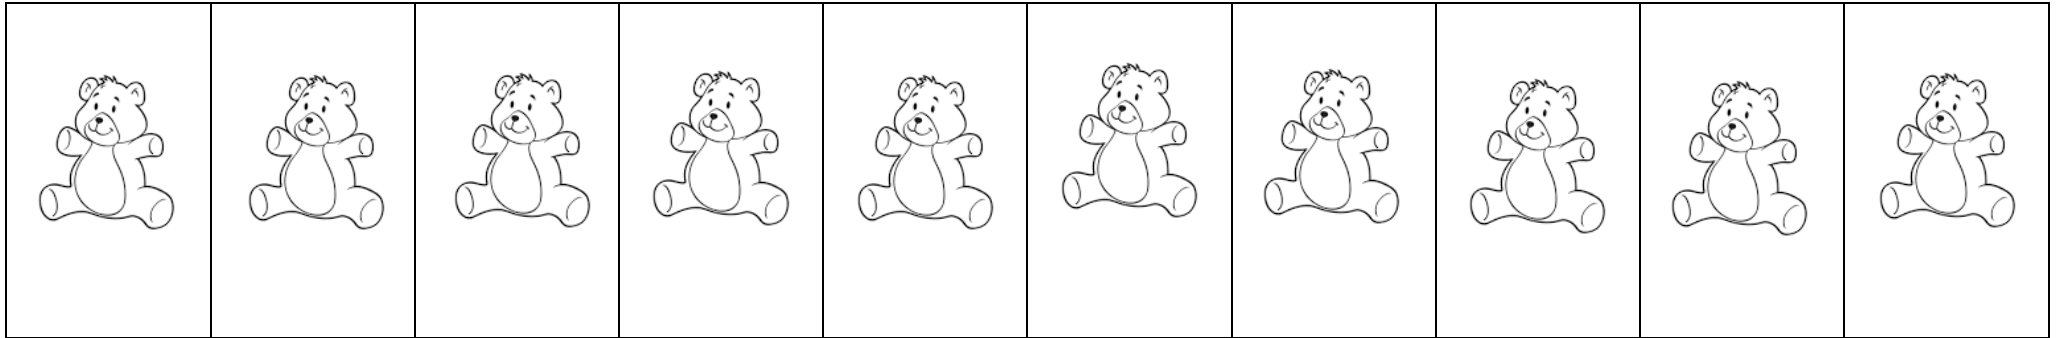

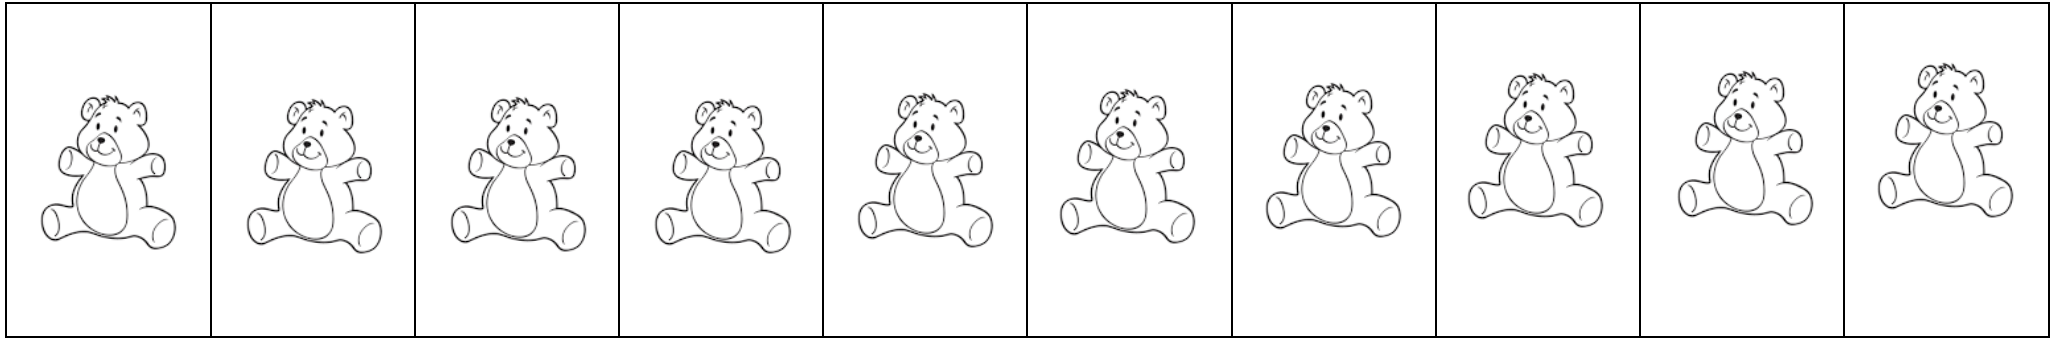

Objectif : Être capable de compléter une collection d'objet pour qu'il y en ait 6.

Consigne : Ajoute des ours sur chaque bande pour obtenir le nombre demandé.

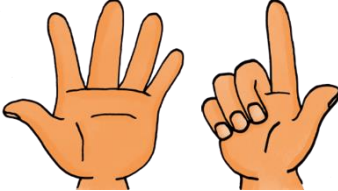

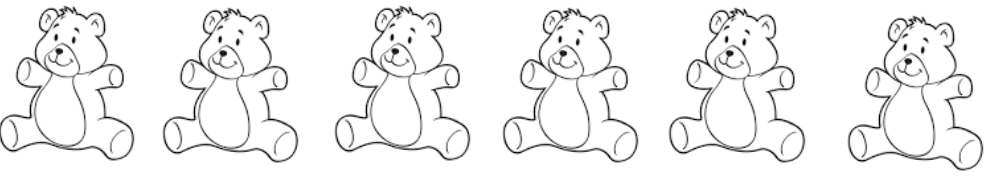

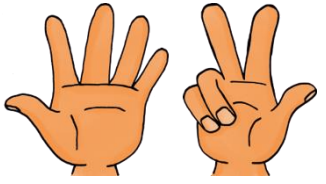

Ours à découper

Fiche optionnelle (à réaliser si vos enfants ont réussi très facilement l'exercice précédent)

 Five black and white line drawings of teddy bears are arranged in a horizontal row.	 Two orange hands are shown. The left hand is open with all five fingers extended, representing the number 5. The right hand has its index finger pointing upwards, representing the number 1.
---	---

 A single black and white line drawing of a teddy bear is centered in the box.	 Two orange hands are shown. The left hand is open with all five fingers extended, representing the number 5. The right hand has its index finger pointing upwards, representing the number 1.
---	---

 Six black and white line drawings of teddy bears are arranged in a horizontal row.	 Two orange hands are shown. The left hand is open with all five fingers extended, representing the number 5. The right hand has its index and middle fingers pointing upwards, representing the number 2.
