

# Correction

$$1000 + 1000 + 500 + 200 + 100 + 50 + 20 + 10 + 10 + 5 + 2 + 2 + 1 = 3000 \text{ g}$$

ou 3 kg

$A = 1000 + 100 + 50 + 20 + 5$   
 $A = 1175 \text{ g}$  ou  $1,175 \text{ kg}$

$B = C$   
 $1000 + 500 + 100 + 50 + 20 = 1670 \text{ g}$   
 $B = C = 1670 : 2 = 835 \text{ g}$

$D + 500 = 2185$   
 $D = 2185 - 500 = 1685 \text{ g}$   
 $= 1,685 \text{ kg}$

$E = F$   
 $E + F + 2000 = 2089$   
 $E + F = 2089 - 100 = 1989 \text{ g}$   
 $E = F = 1989 : 2 = 994,5 \text{ g}$

$$H > G > I$$
