

Révisions - La multiplication - 4^{ème} 1

1. Ecrivez la multiplication qui correspond à chaque dessin.

2. Ecrivez la multiplication qui correspond à l'addition donnée.

$$3+3+3+3+3+3+3+3+3 = \underline{\hspace{2cm}}$$

$$4+4 = \underline{\hspace{2cm}}$$

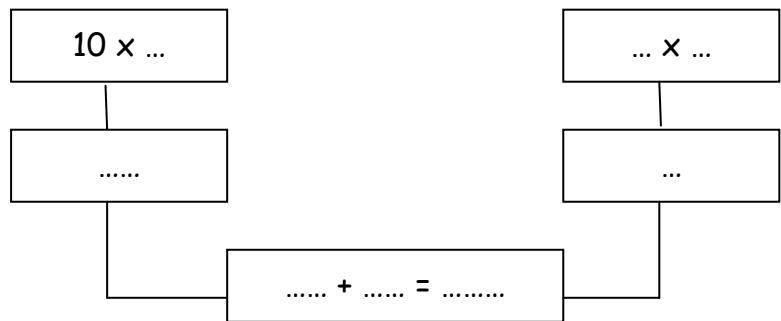

$$7+7+7+7+7+7 = \underline{\hspace{2cm}}$$

$$6+6+6 = \underline{\hspace{2cm}}$$

$$5+5+5+5 = \underline{\hspace{2cm}}$$

$$9+9+9+9+9+9 = \underline{\hspace{2cm}}$$

3. Complétez les calculs pour connaître le nombre de cases.

3. Complétez ces multiplications comme dans l'exemple.

$$12 \times 7 = \boxed{10} \times 7 + \boxed{2} \times 7 \quad \text{car} \quad 12 = 10 + 2$$

$$24 \times 2 = \boxed{20} \times 2 + \boxed{4} \times 2 \quad \text{car} \quad 24 = \dots + \dots$$

$$36 \times 5 = \boxed{\dots} \times 5 + \boxed{\dots} \times 5 \quad \text{car} \quad 36 = \dots + \dots$$

$$71 \times 6 = \boxed{} \times 6 + \boxed{} \times 6 \quad \text{car} \quad \dots = \dots + \dots$$

$$51 \times 3 = \boxed{} \times 3 + \boxed{} \times 3 \quad \text{car} \quad \dots = \dots + \dots$$

$$19 \times 4 = \boxed{} \times \dots + \boxed{} \times \dots \quad \text{car} \quad \dots = \dots + \dots$$

$$22 \times 9 = \boxed{} \times \dots + \boxed{} \times \dots \quad \text{car} \quad \dots = \dots + \dots$$

4. Donnez la multiplication de départ comme dans l'exemple. $\boxed{20} \times 4 + \boxed{3} \times 4 = 23 \times 4$

$$\boxed{40} \times 6 + \boxed{2} \times 6 = \dots \times \dots \quad \boxed{90} \times 3 + \boxed{9} \times 3 = \dots \times \dots$$

$$\boxed{60} \times 5 + \boxed{1} \times 5 = \dots \times \dots \quad 20 \times 7 + 6 \times 7 = \dots \dots \dots$$

5. Même consigne mais attention aux pièges !

$$30 \times 4 + 6 \times 4 = \dots \dots \dots$$

$$5 \times \boxed{40} + 5 \times \boxed{6} = \dots \dots \dots$$

$$\boxed{10} \times 3 + 3 \times \boxed{7} = \dots \dots \dots$$

$$8 \times 20 + 8 \times 9 = \dots \dots \dots$$

$$50 \times 7 + 7 \times 5 = \dots \dots \dots$$

6. Calculez rapidement.

$$6 \times 100 = \dots \dots \dots \quad 200 \times 9 = \dots \dots \dots \quad 900 \times 50 = \dots \dots \dots$$

$$13 \times 10 = \dots \dots \dots \quad 20 \times 30 = \dots \dots \dots \quad 600 \times 600 = \dots \dots \dots$$

$$120 \times 1\,000 = \dots \dots \dots \quad 2 \times 700 = \dots \dots \dots \quad 7\,000 \times 700 = \dots \dots \dots$$

7. Posez et calculez ces multiplications.

$$\begin{array}{r} 165 \\ \times \quad 7 \\ \hline \end{array}$$

$$\begin{array}{r} 229 \\ \times \quad 34 \\ \hline \end{array}$$

$$\begin{array}{r} 1593 \\ \times \quad 102 \\ \hline \end{array}$$

$$901 \times 39$$

$$8024 \times 26$$
