* The organisation of the courses and the other different activities which are on the schedule, the itinerary may be subject to change without notice.

The French workshops aim to overcome the difficulties / fears of speaking in French and to give you confidence so that you can better enjoy your time in France.

For the more advanced students, it also will be an opportunity to practise and improve their speaking skills.

French for beginners / continuing beginners
-we will focus on some practical situations you may encounter while travelling in France. (greetings, using the public transport, going to the restaurant, driving ...). Some cultural aspects of France will be introduced too.

Conversational French from elementary level
-You will have the opportunity to express yourself on a particular topic. Oral and / or written documents will be provided to help with the conversation.

In the afternoon, an informal French workshop will be held.
