

# THIS IS MY WORLD COMENIUS PROJECT 2012-2014

---

TOCCI PRIMARY SCHOOL, CAGLI. ITALY  
SEMESTER 1 : PRESENTATION OF WORK

# OUR AUTUMN FESTIVAL

To allow our schoolchildren to live their lives to the full we think it is important for them to know about traditions, and above all to approach knowledge of the natural world in the correct way.

Our Autumn Festival allowed them to discover the importance of pumpkins and maize in the life of their grandparents, and they learned how to make popcorn and roasted pumpkin seeds on their own ; they cut out decorations in the pumpkins and lit them up with candles, as was once done during the country celebrations by the people to give joy to the children.

# A RECYCLED CHRISTMAS

During the Christmas period we took part in the local Christmas market with a stall selling small Christmas tree decorations which we made in class using recycled materials.

Now our children are spontaneously much more careful about not throwing away materials that could be reused; our classrooms were filled with ribbons, flowers made of material, pieces of cardboard....and every now and then someone suggested something new to make out of them!

# A CARDBOARD BOX CONCERT

With the collaboration of a special music teacher we entertained families with an unusual concert : the only instruments were CARDBOARD BOXES ; the result was very surprising and much appreciated by all!

# OUR CALENDAR

*2013*

**Piccoli gesti quotidiani  
per un progetto di  
vita**

The idea of a calendar representing themes about the protection of the environment and natural resources was very popular with the children , who nominated themselves «Knights of the Environment».

# OUR BUG HOTEL 1

As an introduction to the Bug Hotel project, we have studied insects and their life cycle in English, and the materials necessary to build a bug hotel.

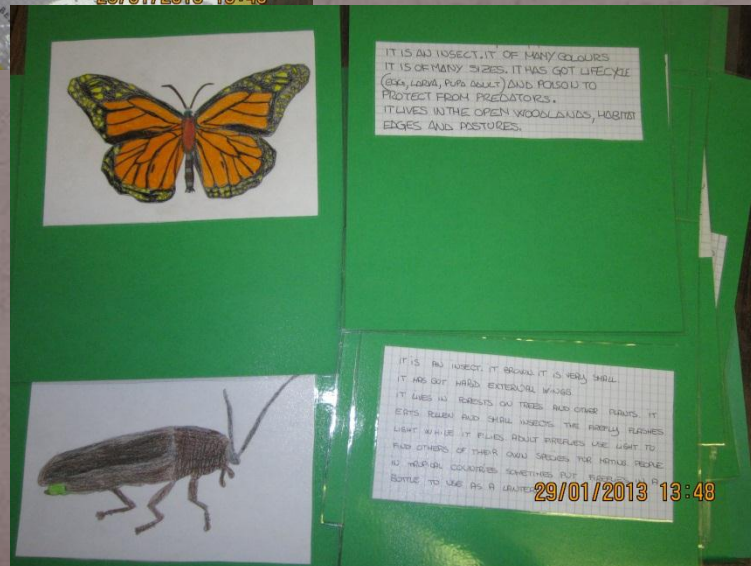

Our class 5 students have made teaching materials for other classes to use, which are English language activities.

# OUR BUG HOTEL 2

29/01/2013 13:46

29/01/2013 13:48

Children have also made games about insects, in the form of crosswords, jokes and poems to read.

# OUR BUG HOTEL 3

The hotel structure is ready, so now we are waiting for a nice sunny day when the children can fill it with the materials they have already brought to school.

# Our vegetable garden

This is where we will  
create our school  
vegetable garden in the  
spring...

# M' Illumino di meno : use less electricity day

On the 17° February 2013  
our school will  
participate in the  
national «Use Less  
Electricity Day». At  
school we will be careful  
not to waste energy, and  
the children will try to  
spend the afternoon  
without television and  
video games.
