

The obolix

The atmospherical cleaners

The rise of project obolix

The atmospherical cleaners were invented by Ea in 2010, he invited us all to participate in the project obolix which should cover the earth to regain pure air and get rid off the heavy metals sprayed everywhere

You are very welcome to participate, this site is merely to watch as the project goes on and fix obolix, turned all to the south, to make a network of prised sunrays

Who is Ea ?

Ea is a memory awakener who spend his life to find remedies and cures to the war that the established lords of war rage against humanity

The obolix is the last tool, after the reminding of the initiative right for direct democracy, after the patient recollection of the Ludus- the glasspearl game, a fourty years work of synthesis, Ea arrived through his spiritual awakening, but artistic, philosophical and musical search, to the obolix, a long-forgotten tool of the ancient times, perhaps used after the war of the gods.

Memorys of past times

The name obolix was chosen by Ea because of the ressemblance to the egyptian obelisk, which appears today as a relik of the forgotten air-cleansing tool the earth itself provides

The mystery of the cristals is astounding, as they form the seven couloured rays they remind us of who we are and they give us a way to practice our unity with nature and to humble us in front of the universal intelligences that have builded up life on this planet

Participate !!

Help us to regain a decent air and free clouds and crystal-clear
skys !!

This is no joke, we hope you try to see by yourself, the tool is
the most extravagant discovery made since long and as for all
Ea's disclosures they appear because of the hard and long work
of research done by all, Ea's mind being centered on and
capable of synthesis we reach with him the recoverys of lost
memorys of the common origins of humanity.

Help to heal the world !!

Did you ever mention the vast desert area that covers two longitudes of the planet, above the equator ? Sahara, mesopotamia, middle-east, India and northern China and Mongolia, but on the other side of the world too, south of USA and northern Mexico are a vast desert... reminders of what happens when atomic warfare is used on this planet

The war of the gods 4000 years ago left humanity in a stone age where barbarity, slavery and warfare entered reality humans did not know before.

Recommendation

We must recover our common origin

The obolix can also help us for this

Do not be shy, write to Ea if you have questions, you can contact him through this mail :

tidom@bluewin.ch

Please watch Ea's videos and join the project, for the sake of the children's future.
