

# **Discrimination visuelle**

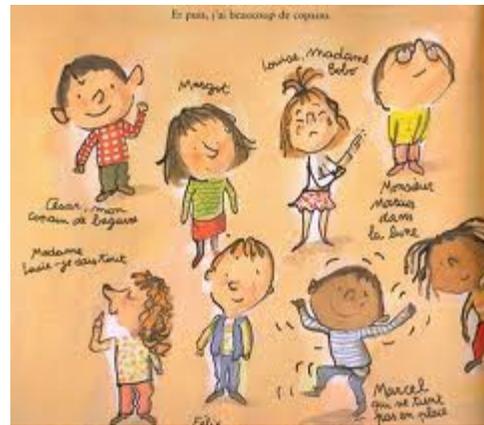

**But du jeu** : retrouver la même image.

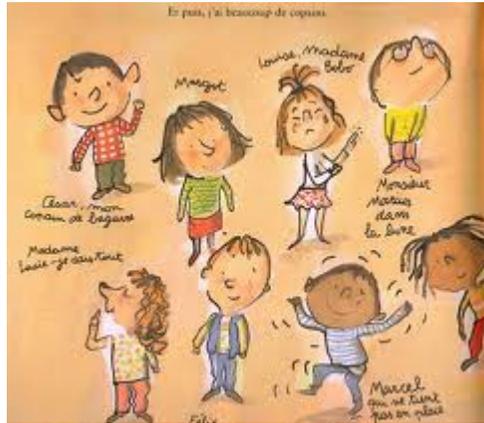

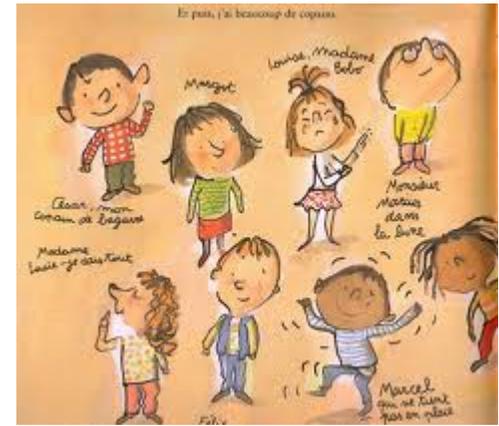

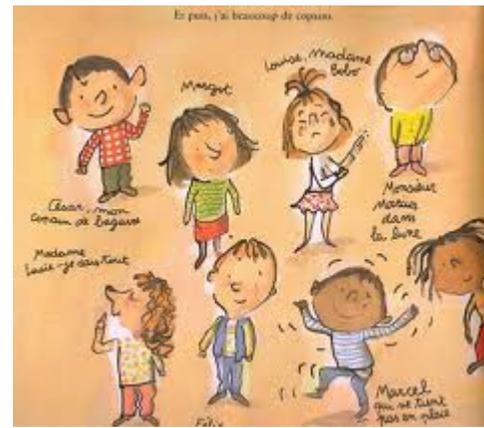

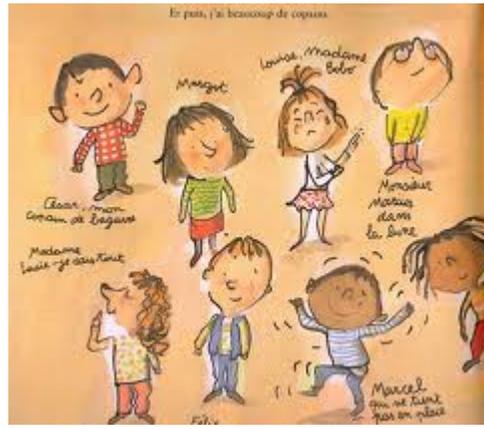

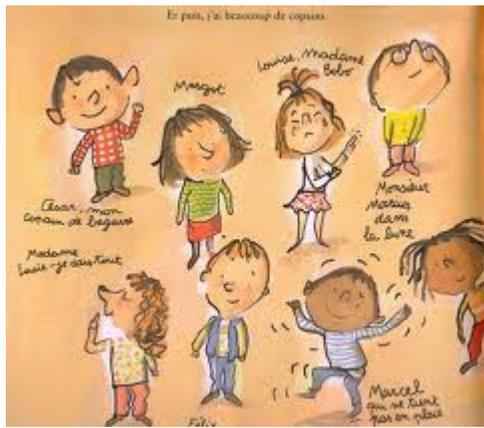

Imprimer la 1e diapo en autant d'exemplaires que d'élèves dans un groupe et plastifier. Imprimer les planches des vignettes, plastifier et les découper. Donner à chaque enfant les 10 images dans une boîte et il doit remettre chaque image sur celle identique sur sa planche.

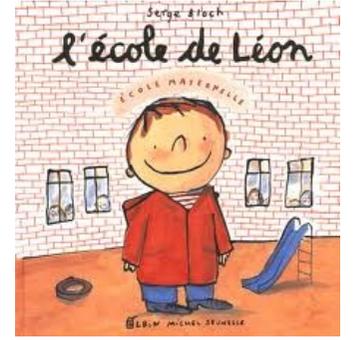

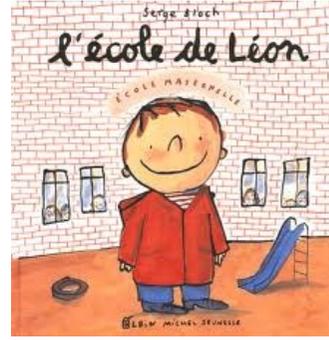

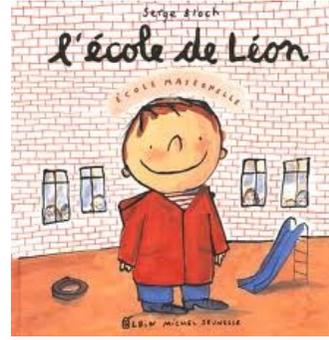

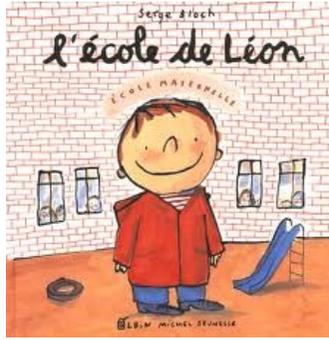

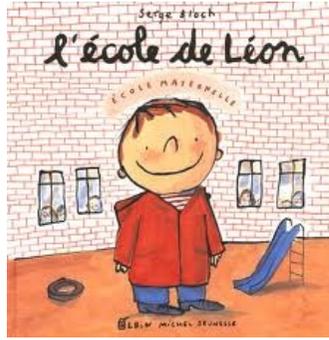

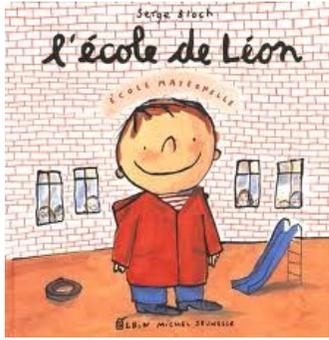

**Variante** : en jeu de rapidité : afficher la planche au tableau et les élèves sont en face. Ils doivent piocher une image (avec de la pâte à fixe au dos de celle-ci) et retrouver son identique et la fixer sur la planche le plus vite possible.
