ETUDIER UNE CHAINE ALIMENTAIRE

- La chaîne alimentaire, c'est **l'ensemble des espèces vivantes dont chacune se nourrit de la précédente**. Le **premier** maillon d'une chaîne alimentaire est un VEGETAL. Le **2^{ème}** maillon est un animal VEGETARIEN qui se nourrit du végétal. Le **3^{ème}** maillon est un animal soit CARNIVORE soit OMNIVORE....
- ***Voici l'exemple d'une chaîne alimentaire:***

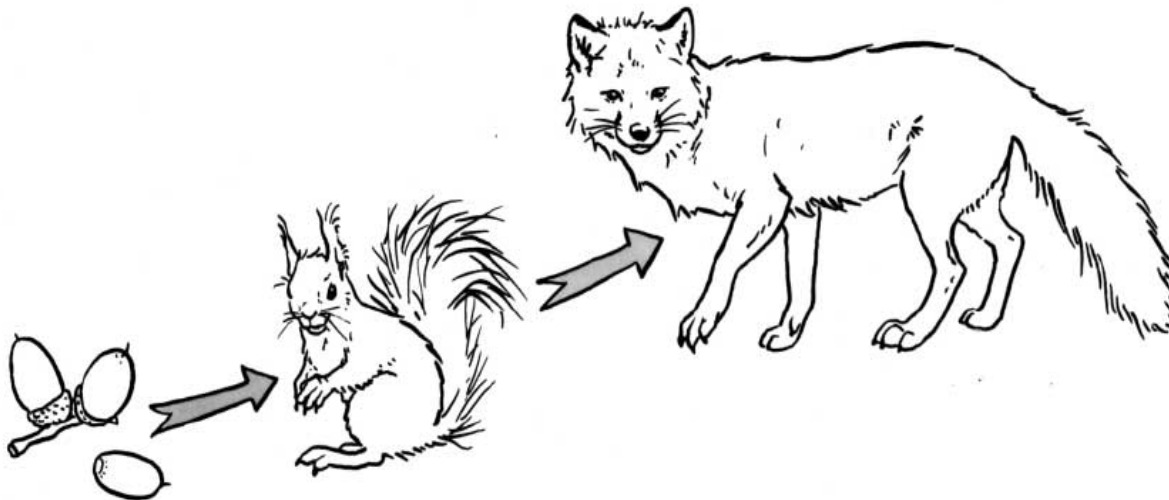

Les glands sont mangés par l'écureuil qui est mangé par le renard.
