A grid-based visualization consisting of a 3x10 grid of light gray squares. Three horizontal black bars are positioned across the grid. The first bar spans columns 1 through 3, the second spans columns 4 through 6, and the third spans columns 7 through 9. Each bar has a small black dash centered above it.

The figure consists of three horizontal bars on a grid background. The first bar is black and spans approximately two columns, ending with a '+' sign at its left end. The second bar is black and spans approximately four columns, ending with a '-' sign at its center. The third bar is black and spans approximately five columns, ending with a '+' sign at its right end.

$$698 + 352 =$$

$$457 - 296 =$$

$$405 + 123 =$$

A grid diagram consisting of 10 columns and 4 rows. The first row contains 10 empty cells. The second row contains 10 empty cells. The third row contains 10 empty cells. The fourth row contains 10 empty cells. In the 1st column, there is a '+' sign in the 3rd row. In the 5th column, there is a '-' sign in the 3rd row. In the 7th column, there is a '+' sign in the 3rd row. The 1st, 2nd, and 3rd columns are filled with a solid black color. The 4th, 5th, and 6th columns are filled with a solid black color. The 7th, 8th, and 9th columns are filled with a solid black color. The 10th column is empty.

$$623 - 121 =$$

$$485 + 192 =$$

$662 - 75 =$

The diagram consists of a grid of 12 vertical columns. Three horizontal bars are drawn across the grid: a thick black bar at the bottom, a thinner black bar in the middle, and another thick black bar at the top. To the left of the bottom bar is a small black square containing a minus sign (-). In the center of the middle bar is a small black square containing a plus sign (+). To the right of the top bar is a small black square containing a minus sign (-).
