

L'automne

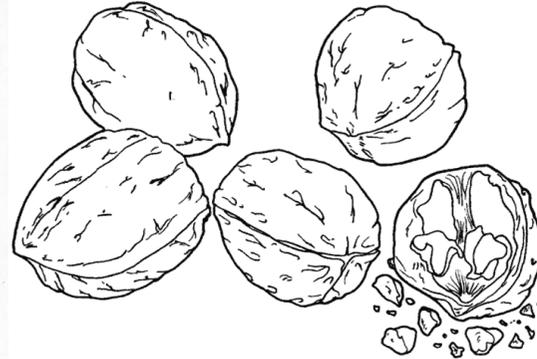

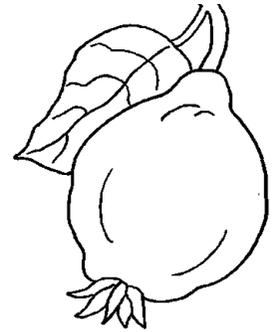

En automne, on mange certains fruits et légumes particuliers.
Colorie en respectant les couleurs.

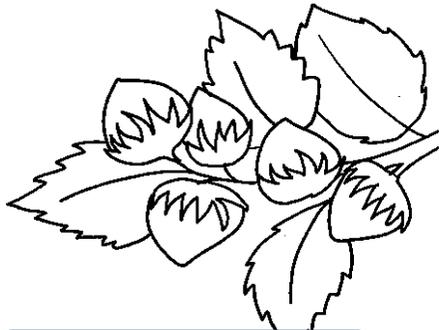

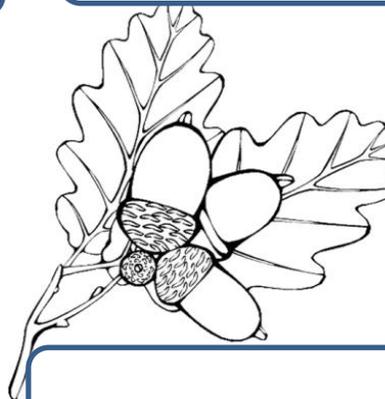

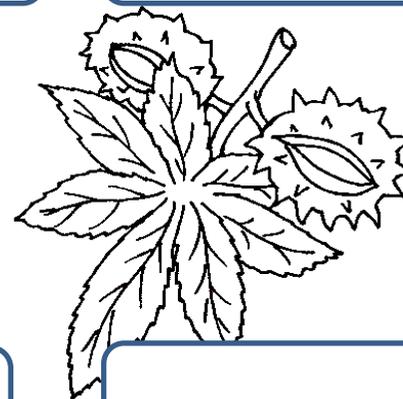

Le raisin	Le champignon	Le coing	Le marron
La châtaigne	La noix	La noisette	La pomme
La poire	La citrouille	Le gland	

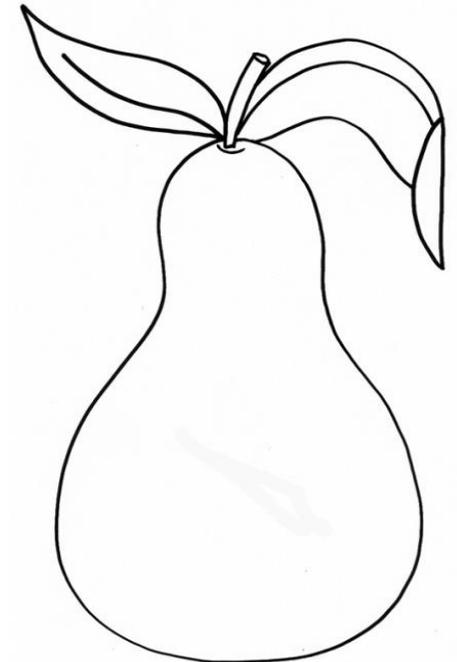

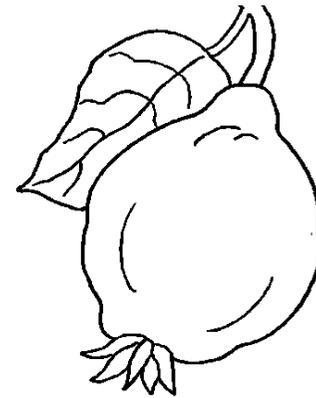

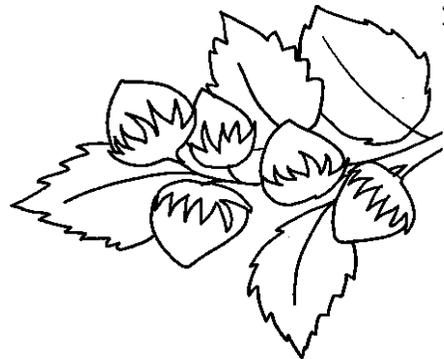

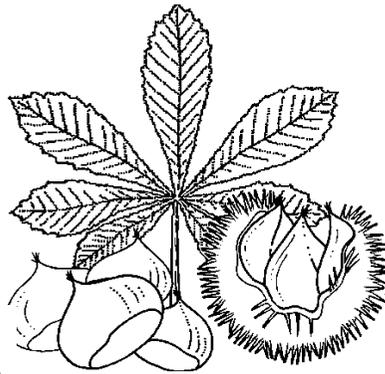

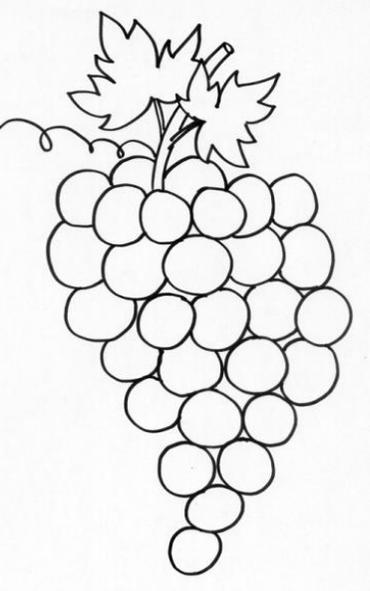

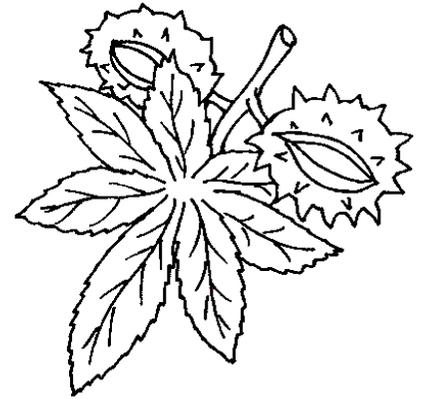

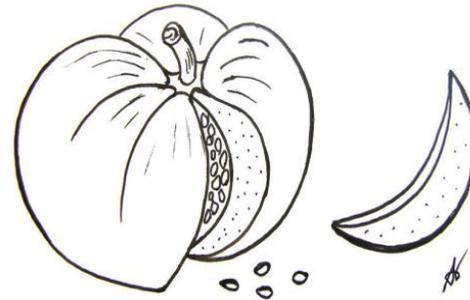

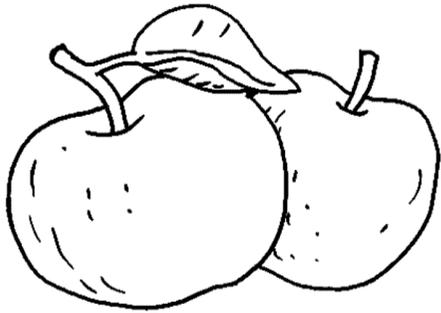

Le raisin	Le champignon	Le coing	Le marron
La châtaigne	La noix	La noisette	La pomme
La poire	La citrouille	Le gland	

Le raisin	Le champignon	Le coing	Le marron
La châtaigne	La noix	La noisette	La pomme
La poire	La citrouille	Le gland	

Le raisin	Le champignon	Le coing	Le marron
La châtaigne	La noix	La noisette	La pomme
La poire	La citrouille	Le gland	

Parmi les fruits de l'automne, on distingue les fruits à pépins et les fruits à coque.

Entoure en vert les fruits à pépins, en rouge les fruits à coque.

Relie le nom du fruits avec le nom de l'arbre sur lequel il pousse.

La pomme

La noisette
