

Jumbo circus : la marche des éléphants

Weplay

Progression PS

Objectifs :

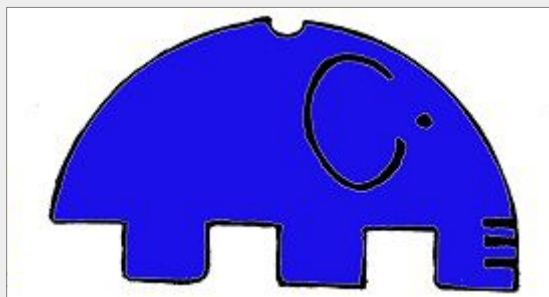

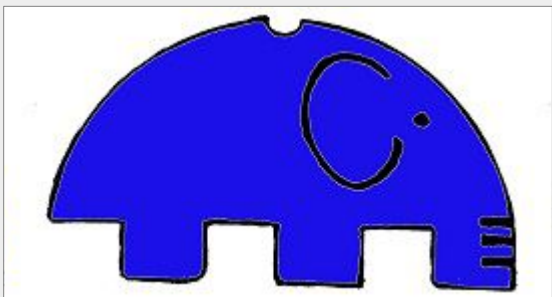

Placer les élèves dans une démarche de découverte et d'analyse au travers de manipulation.
Développer sa pensée logique pour situer des objets les uns par rapport aux autres : respecter l'ordre et repérer la position des objets. (spatialisation et orientation dans l'espace) ; respecter la taille et la couleur des objets. Amener en douceur les termes spatiaux « gauche » et « droite ».
Passer du plan au volume.

Exploitation :

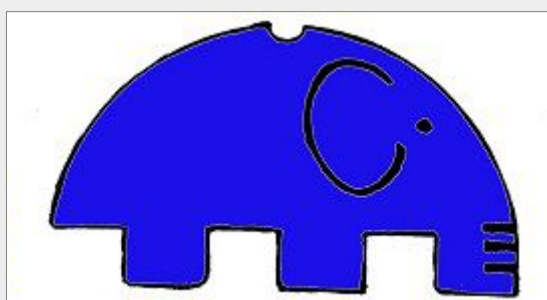

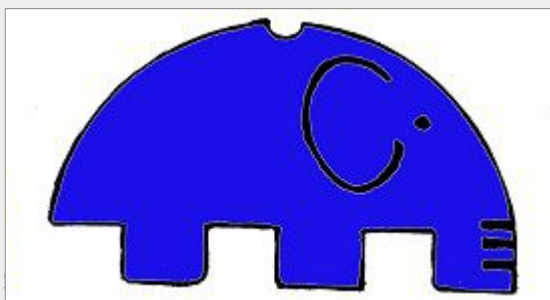

Chaque enfant reçoit une fiche-modèle en 2D et cherche à construire l'alignement d'éléphants demandé en 3D avec les objets ou en 2D sur un tableau véléda si on utilise les images avec aimants.

Les fiches sont proposées en ordre de difficulté croissante et pour que 4 enfants puissent s'exercer en même temps. (EX : 1a, 1b, 1c et 1d sont relativement de difficulté égale.)
Il est également possible d'éloigner la boîte contenant les objets ou jetons, afin que les enfants mémorisent et aillent chercher en une fois le matériel nécessaire.
