

A Halloween haunted house

1/ First, start with white paint and paint a circle.

2/ Use another color (blue, purple, or turquoise) to continue painting.

3/ Mix it with white to keep it light.

4/The circles will get darker and darker as you go out to the edge of the paper.

5/ Cut out your haunted house outline. Glue it onto your painting.

6/Glue a black haunted house onto yellow construction paper. This will give light to your house's windows!
