Koinobori

# Le Koïnobori

Qu'est-ce que c'est ?

Les Koïnobori sont des serpentins de carpe, « koï » en japonais.

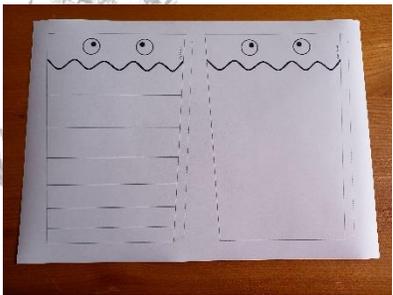

Les Japonais les accrochent lors de la fête des enfants ou ***kodomo no hi***, le 5 mai. Ces carpes sont accrochées à des perches de bambou et représentent tous les membres de la famille.

Selon une légende chinoise, les carpes du fleuve Jaune s'envoleraient pour devenir des dragons. Cette tradition, au Japon, signifie la fin de la petite enfance et le passage au CP l'année d'après.
