Dictée 4 semaine 4

Il y a beaucoup de soleil.

Tu dois te couvrir la tête.

La lumière fait mal aux yeux.

Tu rêves de te rafraîchir.

The diagram illustrates the addition of two numbers, 463 and 23150, with a carry-over of 926. The numbers are arranged as follows:

$$\begin{array}{r} 463 \\ + 23150 \\ \hline 24076 \end{array}$$

The carry-over is shown as 926, with a red 0 below the 5 in the second number. The diagram includes numbered circles (1, 2, 3) and arrows indicating the flow of digits and the carry-over process:

- Circle 1 is on the right side of the 463 and 23150 numbers.
- Circle 2 is on the left side of the 463 and 23150 numbers.
- Circle 3 is on the right side of the 23150 and 24076 numbers.
- Arrows indicate the flow of digits from right to left, and the carry-over from the 5 in the second number to the 0 in the first number.
