

Calcul : ajouter des dizaines entières

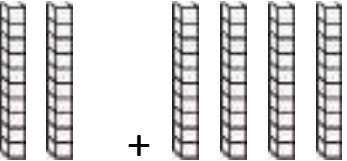

1. Complète et calcule comme dans l'exemple :

$2d + 3d = 5d$
 $20 + 30 = 50$

$\dots d + \dots d = \dots d$
 $\dots + \dots = \dots$

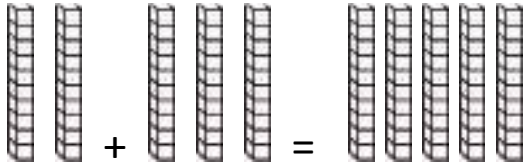

$\dots d + \dots d = \dots d$
 $\dots + \dots = \dots$

2. Calcule :

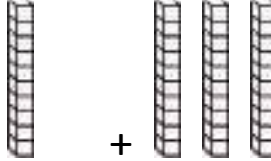

$10 + 20 = \dots\dots\dots$
 $20 + 20 = \dots\dots\dots$
 $20 + 30 = \dots\dots\dots$
 $10 + 30 = \dots\dots\dots$
 $40 + 10 = \dots\dots\dots$
 $40 + 20 = \dots\dots\dots$
 $10 + 10 + 10 = \dots\dots\dots$
 $10 + 10 + 20 = \dots\dots\dots$

Calcul : ajouter des dizaines entières
